

Amateur Radio Club of Westminster Village offers a Technician Course every April and October.

- All instructors, books, videos, and equipment are provided. Assigned chapters to read before class.
- Spend 2.5 hours on FIVE consecutive Fridays 6:00PM-8:30PM
- Participants will be eligible to take the national test & become licensed as a radio operator with the Federal Communications Commission FCC.

Here are the exciting things that you can do with Amateur Radio:

- Explore the wireless technology used in your cell phones and by amateur radio operators.
- Learning radio language to use on the air.
- Discover international phonic alphabet and morse code.
- Basic Electronics: math, reading schematics, and electronic components.
- Compete on-the-air for awards or contest certificates!
- Use portable radios to communicate when camping, hiking, or on biking trails.
- Get licensed by the Federal Communication Commission to operate your own radio station.
- Use your radio to help your community with fun runs, rallies, or sporting events.
- Help your community during disasters with emergency communication when all else fails.

Fees:

Course Fee: \$25. pay by check/money order.

Testing: \$15. pay in cash on Test Date

License Fee: \$35. pay online to the FCC.
